

Public Notice  
Proposed Issuance of a Construction Permit to  
CCL Custom Manufacturing, Inc. in Danville

CCL Custom Manufacturing, Inc. has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a permit to construct a new aerosol filling line at its facility located at 1 West Hegeler Lane in Danville. Increases in air emissions from the new line would be partially offset by the reduction in emissions by the disuse of two pumps at the facility so that this new construction is not subject the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The Illinois EPA is accepting comments on the proposed permit.

Persons wanting more information may obtain copies of the draft permit, and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, State Construction Permit, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2125 South First Street in Champaign, 217/278-5800 and 1340 North Ninth St., Springfield, 217/782-7027 (for either location please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight November 7, 2002. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
